

WHERE EAU CLAIRE LISTENS TO *GOOD MUSIC and NEWS*

EAU CLAIRE, WISCONSIN

1,000 WATTS
1050 K.C. CLEAR CHANNEL

April 9, 1964

Mr. Carl Dabelstein
12524 "C" Street
Omaha 44, Nebraska

Dear Mr. Dabelstein:

I received your letter reporting reception of our station on April 6, 1964.

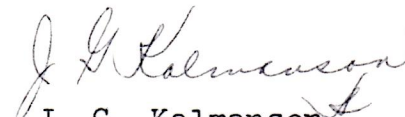

The information you gave us will verify that you received the WECL signal.

We are a daytime station on 1050 KC with 1 KW power. As you have requested, we have enclosed our coverage map.

Phelps Laboratories in Minneapolis conduct our frequency checks each month. We never know as to the time or day this will be done.

Thank you for your interest in our station.

Yours very truly,

J. G. Kalmanson
Chief Engineer
