Port Washington, Wisconsin 53074

CARL DABELSTEIN  
1419 South 54th Street  
Omaha, Nebraska 68106

Dear Carl,

The information you received on the morning of August 26, 1966, is correct. Although I was not under the employ of this station at the time, this is the normal procedure for an EBS TEST.

We are located fifteen miles north of Milwaukee, Wisconsin, in the county of Ozaukee. We are a 250 watt, directional, daytime station at 1560 kc.

I am sorry your letter was not answered, if at any time I can help you or any member of your organization, please do not hesitate to call me.

Respectively

STAN WEBB  
CHIEF ENGINEER
