Dear Sir,

Thank you for your report on the reception of WKAU in your area. We are always glad to hear from new listeners and to find out just how far our signal reaches. We are a 1,000 watt directional clear channel station, operating from 6:00AM to local sunset. We are three tower directional and have to protect stations to the South, WLIP 1050 from Kenosha and to the West WOKL 1050 from Eau Claire. Our signal is mainly Northeast, with good coverage to the North and East. This is verification that the information you sent was correct.

Thanks again for your report on the reception of WKAU and hope you'll listen whenever you can.

Sincerely,

James J. Rammer
Chief Engineer
