April 23, 1973

Carl W. Dabelstein
3300 North 56th Street
Lincoln, Nebraska 68507

Sir,

Your report is accurate. KMERadio is located at 950 KHz and has a power output of 5000 watts daytime and 500 watts pre-sunrise. We appreciate your effort in dubbing the tape, it proved very imformative.

We here at KMERadio thank you for submitting you report and are surprised to learn that we can be heard at such a range. If there is anything we can do to help you further, please contact us.

Sincerely,

(Mrs.) Brenda Wade
Secretary, KMERadio
