Mr. Dablestein,

I received your report from when you picked up on our frequency last August 1989, at the time you heard the station, it was three days before it actually became WZAZ, however I have checked on back records from old programming logs and find your information to be true and correct.

It was pleasant to hear from someone so far away, and I hope you enjoyed what you heard as much as our local listeners do.

Good Luck,
