Overland Park, KS. 66212
August 7, 1989

Mr. Dabersein,

Please accept my apology for delaying this response so long.

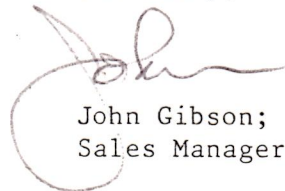

Apparently you did indeed receive the Citrus 95 signal. WXCW has only 3,000 watts of FM power so the skip was indeed a strange one.

The reason your first letter was returned was because although our license is Homosassa, our physical address is in Crystal River right along side the Plantation Golf Resort Golf Course. -Tough life.

I've enclosed a pair of bumper stickers for your Q.S.O board. Thank you for listening to Citrus 95, no matter how briefly.

Please stop in and see us if you wander down Florida way sometime.

Sincerely,

A handwritten signature in cursive script, appearing to read "John Gibson", is written over the typed name and title.

John Gibson;
Sales Manager

WXCW 95.3 fm
