PULSE RATED NUMBER ONE IN METROPOLITAN AUGUSTA

June 13, 1972

Mr. Carl W. Dabelstein  
3300 N. 56th St.  
Lincoln Nebr. 68507

Dear Mr. Dabelstein:

This will verify your reception of WBBQ-AM June 8, 1972,  
8:13 to 8:26 PM.

We were using a Gates BC-250-GY transmitter (almost 26  
years old and still going strong) with 250 watts power,  
feeding a 200 foot uniform cross section vertical tower.

During the daytime we switch to a 1000 watt transmitter.

Your reception, undoubtedly caused by strange atmospheric  
conditions, is quite amazing, since most of the reports  
we receive are during the test period shortly after mid-  
night Monday morning, once a month; when we use the 1000  
watt transmitter for testing.

Cordially,

*Geo. Weiss*  
George G. Weiss  
Ass't. C.E.

CORRECTION: I see you picked us up on FM. This is from  
an RCA 20,000 watt transmitter radiating 100,000 watts  
horizontal and 35,000 watts vertical, 525 ft. AAT;  
twin 8-bay antennas.
