

August 9, 1989

Carl Dabelstein
9404 Santa Fe Lane
Overland Park, KS 66212

Dear Carl:

This letter serves as confirmation of reception of KEZT at Overland Park, Kansas on August 5, 1989. Your description of the program and what was on the air was accurate.

We operate with 100 kW at 1000 feet HAAT. The antenna is about 25 miles northwest of Des Moines with the elements facing straight east.

Thank you for your report and good DXing.

Cordially,

Steve Locker

Operations Manager;
