Dear Carl:

I am sorry to be so late in replying to your report. I do want to thank you for your letter.

The programing you were Receiving was a remote broadcast from Stuart Iowa. This was the coverage of good egg days.

The conditions that appear to be skip, is usually caused by thurmal ducting. This is a condition when a layor of hot and cold air at a high altitude form a reflector that works like a parabloic dish.

The call for the FM. is KITR. It is a class A 3KW. station. the call for the AM. is KSIB it is a 1KW .on 1520.

Agin thank you for your report. I am also a Hamm KØHFX.

Charlie Maley

A handwritten signature in cursive script that reads "Charlie Maley".
