Carl W Dabelstein Overland Park, Ks

Dear Carl:

Re Your letter dated June 10, 1989

I'm sorry that I didn't respond to your correspondence earlier. I set it aside and ran across it today. This will verify your report of reception on June 10, 1989 of KOEL-FM.

KOEL-FM went on the air in 1971 with 12 bays of antenna on a 500 foot tower with an E.R.P. of 100,000 watts. We have since installed a new 12 bay ERI antenna on a 1000 foot tower. This 1,000 foot tower was in use when You picked up KOEL-FM.

We also have a 3 tower, 2 pattern AM station utilizing 5,000 watts daytime and 500 watts at night on a frequency of 950 kilohertz.

Thank you for your reception report.

mulderel
