Omaha 44, Nebraska

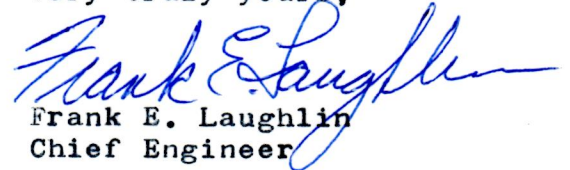

Dear Sir:

Thank you for your reception report of WGEM-FM on June 25th. You join several others indicating reception of both FM and Channel 10 Television.

Normally we do not acknowledge a report without more program information than you have indicated, but no doubt you did receive our station due to the Channel 10 program information. In the future we would suggest you include the type of information which was given.

Thanks for your interest.

Very truly yours,

Frank E. Laughlin
Chief Engineer
