Dear Mr. Dabelstein,

This is a note to confirm your reception of KHCD at 89.5MHz. KHCD is a relatively new noncommercial FM station built as a satellite station for KHCC in Hutchinson, Kansas. KHCD is 100,000 watts with center of radiation at 925 feet. Its transmitter location is 25 miles northeast of Salina. Its primary coverage encompasses Salina, Concordia, Junction City, and Manhattan. We have current members as far north as Hebron, Nebraska.

Good luck dx-ing!

Sincerely,

A handwritten signature in blue ink, appearing to read 'Ric Jung', is written over the word 'Sincerely,'.
