Carl W. Dabelstein
3300 North 56th Street
Lincoln, Nebraska

Dear Mr. Dabelstein:

Thanks for your recent reception report concerning KJRG-FM. Sorry about the delay. Your first one must have been misplaced.

It's always nice to know when someone receives us from a distance. We have had a few reports in your area but I believe you're the first one from Lincoln.

Our FM is operated from a 12 bay dual polarized Jampro antenna side mounted on top of our AM tower which is 455 ft. Licensed output is 100,000 watts horizontal and 63,000 watts vertical.

Sincerely Yours,

K J R G - FM

Carl Weaver
Chief Engineer
