Dear Mr. Dabenstein;

This letter confirms your reception report of KLRK radio on the morning of 6/15/87.

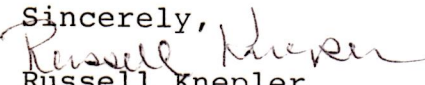

KLRK radio operates at 100.1 Mhz with an power of 3Kw and antenna height of 300 Feet. Our transmitter is a Gates product with an BE exciter, CRL processing and a Howel 9000 control board.

All of our music is on carts and or CD disc.

We no longer have any coverage maps as the station is in the process of changing ownership, call letters and format. However, I have enclosed some bumper stickers for your use.

Thank you for your letter and should you receive our station in the future, let us know. Also thank you for your interest in KLRK radio.

Sincerely,

Russell Knepler
