Mr. Carl W. Dabelstein
8209 West 78th Street
Overland Park, Kansas 66204

Dear Mr. Dabelstein

This letter is to confirm your reception of KZNN FM from Rolla, Missouri on 105.3 Mhz June 13, 1987.

KZNN FM operates with an effective radiated power of 100,000 Watts. Our transmitter is a Harris FM-25K feeding an ERI 8 bay antenna with circular polarization. The tower is 500 feet in height and 631 feet above average terrain and is located exactly 4 miles south of Rolla on State route 0.

I very much appreciate your report of reception of our station. We began operation at 100,000 Watts at the first of November, 1986 and constantly receive reports of reception of our station at distances well over 100 miles.

Yours truly;

A handwritten signature in cursive script that reads "William P. Botts".

William P. Botts
