

August 30, 1990

Mr. Carl W. Dabelstein
9404 Santa Fe Lane
Overland Park, KS 66212

Dear Mr. Dabelstein:

Your information of reception is correct. KESY-FM currently is 100,000 watts ERP at 333.2 meters center of radiation on KMTV's television tower located at 5400 North 72nd Street. KESY-FM was up-graded from 32,000 watts ERP on December 9th of 1988, due to FCC rules and regulations.

We always appreciate letters of request, then we know that at least we are getting out 100 miles. Thanks so much for your inquiry.

Sincerely,

A handwritten signature in blue ink, which appears to read "Chuck J. Ramold".

Chuck J. Ramold
Chief Engineer
KESY AM/FM
