Dear Carl:

One of the Secretary's showed me your letter concerning your report on picking up K H U B-FM in Lincoln. It's good to get such a great signal report.

Couldn't help but notice your call K Ø S B V, thought you might be interested to note that the President of K H U B, Inc. has been a "ham" for many years - his call is W Ø N V E. I've had my ticket for a few years too with the call W B Ø G Q M. The guy you heard doing the McDonald's remote works part-time for us and his call is W A Ø S H O, PAUL REHM.

K H U B-FM has been on for two (2) years now with a Sparta Bauer 602 running 2.1 kilowatts to a 3 bay Jampro antenna at 130 feet. Our E.R.P. is rated at 3 KW.

Good luck on your contest!

Vy 73,

W B Ø G Q M
