9404 Santa Fe Lane
Overland Park Ks 66212

Good Morning Carl:

Your reception report of June 20 1989 contained correct data. KTGL FM studios are now located in Lincoln, your description of our studio location was correct, it is now our sister station KWBE AM on 1450 KHZ. The KTGL FM tower is now located 1 mile from Hallum Nebraska, 100 KW erp at 760 Ft tower with 8 bay ERI antenna, itv really seems to put out a good signal, we are also on high ground (200 ft higher than Beatrice or Lincoln.)

Thanks for the Reception report.

James C. Droege
