Carl W. Dabelstein
9404 Santa Fe Lane
Overland Park, KS. 66212

Dear Mr. Dabelstein,

Thank you for your letter requesting confirmation of monitoring KUCV's program on June 25 from 12:55am to 1:00am.

12:55	A <u>Musical Offering</u> , "Bach to Baroque" (pretaped)
12:58	"Weather for Lincoln and Vicinity"
1:00	Station identification and sign off.

You might be interested to know that in 1980 KUCV, then licensed to Union College was upgraded to an 18.2kw, full service public radion station and affiliate of National Public Radio and American Public Radio. In August of 1988 Union College donated KUCV to the Nebraska Educational Telecommunications Commission. In that same month KUCV studios were moved to the NETC building on east UNL campus. The transmitter and antenna were relocated to Hallam Nebraska, 20 miles south of Lincoln, on May 29, 1989. We currently operate with Effective Radiated Power of 16kw and our antenna is 640ft. Above Ground Level.

Enclosed please find a copy of our current program schedule.

Sincerely yours,

Ralph Sanchez
Production Director, KUCV-FM
