

July 28, 1988

Mr. Carl W. Davelstein
8209 West 78th Street
Overland Park, KS 66204

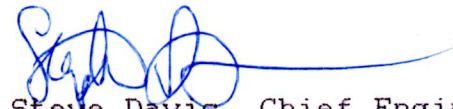

Dear Mr. Dabelstein:

This is to confirm your reception of radio station KMOD FM Radio on 8/10/87 between 6:18 pm. and 11:50 pm.

KMOD broadcasts from a tower atop McCanley Hill just North of Sand Springs and N.W. of Tulsa, at a height of 1350 feet AAT, with an ERP of 100 KW. The antenna is a combined system, shared with KRAV FM and KWEN FM. An ERI combiner system and ERI antenna are used in the transmission system. KMOD is an album rock station, which has successfully maintained the same format since it signed on the air in October of 1973.

Thanks for you letter -- it will be added to our files.

Sincerely,

Steve Davis, Chief Engineer
KMOD/KAKC Radio
