February 13, 1976

Mr. Carl W. Dabelstein
3139 North 65th Street
Lincoln, Nebraska 68507

Dear Mr. Dabelstein

Please accept my apology for now having responded earlier to your letters, but the press of planning and construction for a new Television facility has really taken its toll on some aspects of station operation.

This letter is to verify your report of reception of our station, WITF-FM, on July 1, 1975 at about 6 o'clock E.D.T. Your report of a program from National Public Radio confirms our broadcast of the daily news program from N.P.R; "All Things Considered".

Our station has enjoyed a period of exceptionally good DX reports over the last few years with reports from southern Florida, the Mid-West and some exceptionally good short skip. Good conditions and less crowded band conditions in the "low end" probably have helped. Now, there are so many local stations receiving "Educational" assignments, and other stations in the East on our frequency, that I fear that the really good DX'ing days are gone.

Enclosed is a copy of our monthly Program Guide. Our station is Publically owned, and depends, for the most part, on contributions and subscriptions from our listeners and viewers. Our Program Guide is sent to those who contribute \$15 (or more) toward the support of our Station activities.

I note that you are also a Ham; we have an unusually high Ham population on our Engineering staff, and our tower is the site of the local Two Meter Amateur Repeater, WR3ABV (146.16/.76).

Good luck with your DX activities.

Sincerely,

John A. Bosak, K3IBN
Chief Engineer
