Dear Carl,

Please forgive the tardiness of this reply to your reception report dated 17 Jul 1987. The pile of paper that builds up on any engineers desk must be my excuse. So much for excuses that don't hold water anyway!

KBYU is associated with Brigham Young University and broadcasts a 24 hr schedule of classical music. We transmit from Mt Vision, approximately 40 miles north west of Provo. Our transmitter is a Harris FM-25k transmitting with an effective radiated power of 31kw.

We are happy to receive your report and hereby confirm your reception of our station. Thanks for taking the time to write to us.
