

Elk Mountain Broadcasting

415 W. Buffalo
Rawlins, Wyoming 82301
(307) 324-2711

Dear Mr. Dabelstein:

This letter is to confirm the details of your reception of our FM signal at 11:05 MDT on Sunday, July 23rd at our assigned frequency of 92.7 Mhz.

In fact, on that date and time, we were simulcasting our AM and FM stations with our Sunday morning programming. After reviewing the operating logs of that date, we did air a spot for the Carbon County Tourism Bed and Breakfast promotion, a commercial spot for Corral West Ranchwear, and the regular Sunday programming from Christ Lutheran Church in Rawlins.

For your information, KIQZ-FM operates at 3,000 watts at 300 feet A.A.T. Weather conditions on this date were very cloudy with heavy afternoon rainstorms.

The City of Rawlins has a population of around 10,000 with a primary economic base in the oil, mining, and tourism industries. We are located on Interstate 80 in south central Wyoming

Please let me know if I can be of further assistance.

Sincerely,

David Corpuz

Program Director
