FORT DODGE, IOWA

Warden Building

July 27, 1965

Dear Carl,

This letter is verification of receipt of your letter of the 23rd pertaining to reception of our signal on the same date.

To answer your query, no we have had no previous reports from your area.

This is pretty good DX, considering that we are an UHF channel and also that we are directional, broadcasting primarily northwest and southeast of Fort Dodge, with our main lobe to the northwest.

I might mention in passing that on June 2, 1964, I fired up my parents Tv over by Oelwein, Iowa, and Received WESH-TV, Daytona Beach, Florida. These skip conditions are wierd sometimes.

However, glad to hear from you, OM, maybe we can QSO sometime.
