This is to confirm your reception of KELO-TV, Ch. 11, on  
Sunday, May 30, 1965 from 07:15 to 07:35 CST.

Reception of our signal was probably due to tropospheric  
bending which extended North from here into Canada.

VE4GI at Winnipeg has also reported reception of us this  
Spring.

Thank-you,

Bill Smith, KØCER
