Sproul Estates
Chester, Pa. 19013

Dear Mr. Dangerfield:

Thank you for your letter reporting reception of KOMO. A check of our transmitter log for Monday, March 15, 1965 shows the following:

Sign Off	0007	Directional Antenna
Test	0015-0138	Directional from 0054-0138 Non-directional 0015-0054
Aux. Test	0157-0216	Directional Antenna

Our directional antenna pattern protects a station in Chicago on 1000 KCs. The last program on Sunday evening is a discussion program called "Let's Talk About That".

We hope this letter will serve as verification of your report of KOMO reception and will aid you in indentifying the other signals.

Very truly yours,

(Mrs.) Barbara McKenna
