Mr. Benjamin Dangerfield, 3D
202 Governor's Drive
Sprout Estates, Chester P.O., Pa.

Dear Mr. Dangerfield:

Thank you for your report of YNOL, Ondas de Luz, of March 23rd.
It was of special interest to me since my home town is Allentown, Pa.
I have already written my parents there to see if they can pick us up.
My father has an old Hammerlund, but isn't too good at tuning them in.

On March 12 we celebrated our first anniversary and also dedicated
our 15,000 watt transmitter. There were over 1000 present to witness it.

We again want to thank you for your report and even though we don't
have regular QSL cards yet, we are sending you a colored postcard which
I hope will serve. We would appreciate hearing from you from time to
time - maybe every month if possible - telling us how you are receiving
our signal.

Very sincerely yours,

David C. Solt
Chief Engineer
