Benjamin Dangerfield, 3d
202 Governor's Drive,
Sproul Estates,
CHESTER, Pa., 19013
U.S.A.

Dear Mr. Dangerfield:

We'd like to thank YOU

for your interest in

CHLO RADIO!

This also provides us with the opportunity to tell you a bit more about ourselves.

For 132 hours each week, (6,864 yearly), listeners throughout Southwestern Ontario plus northern Ohio and eastern Michigan dial Radio 68's friendly voice to hear what we sincerely believe is the most diversified schedule of programs and features offered by any radio station in this part of Canada.

With studios and offices here in St. Thomas and transmitter facilities mid-way between this city and London, CHLO RADIO's 1 kw. day-night signal becomes airborne via a 4 tower antenna array that produces a cardioid-shaped pattern of radiation with a north/south orientation. Day-night pattern is the same.

We're glad that our dial paths have crossed on this occasion and we hope that this will be but the first of many such pleasant encounters!

Now for the 20 staff members, and all the other personalities, participants, advertisers and listeners who make our many broadcast services possible, again our thanks!

November 9th, 1965

For CHLO RADIO

John L. Moore,
President & General Manager,
Souwesto Broadcasters Limited.

P.S. We're pleased to verify your CHLO reception report of November 4th. Thanks for the details which made it possible!
