January 18/66

Mr. Benjamin Dangerfield, 3d,
202 Governor's Drive,
Sproul Estates,
Chester, Pennsylvania-19013,
U.S.A.

Dear Sir:

Thank you most sincerely for a very interesting reception report on January 12th.

We did have a crystal problem along with various other breakdowns for about a week. You might be interested in knowing that when you picked up our signal at 565 kilocycles, we were operating on our emergency facilities at 1,000 watts.

Yours truly,
Station CJKL,

Ron Smith,
Program Director.
