Dear Mr. Dangerfield,

Thank you for your letter of November 30 reporting reception of our station.

From the data you have given it would seem that you definitely heard us on November 30.

I see that you also heard St. Maarten and Totola; the former uses 20 k.w. and the latter 10 k.w.

There is a station very near to our frequency which we believe to be Puerto Rico, so this may have been the station from whom you had the interference.

I am returning your reply coupon because we cannot change them.

Wishing you luck with your future listening.

Yours sincerely,
