March 25, 1960

Dear Listener,

Thank you for your letter of February 27, 1960 telling us of the error we made in the QSL card we sent you. Please forgive us; it was purely a secretarial one. We certainly confirm that you heard Praha II on 1286 kcs, and your correct QSL card will read accordingly. We do not get many reception reports for our middle wave programs; it is most interesting that you heard us so well. The QSL card is being sent by separate mail.

You will find enclosed another Radio Prague lottery ticket - save this, and any more that you may receive from us this year, as they will represent chances to win a prize in January 1961. We wish you Good Luck!

Your offer to send reception reports for our North American broadcast is most welcome, and we look forward to receiving them. Your comments and criticisms are also appreciated. Good Listening, and let us hear from you again!

Sincerely yours,  
*Martha Trojanova*
