Sproul Estates,  
Chester P.O., PA, U.S.A.

Dear Sir,

Thank you for your letter of the 26th December reporting reception of our Clevedon transmitter on 1457 kc/s.

We are very interested to have your report about reception of this station. The programme details you give agree with the programme which would have been radiated from this transmitter at the time. You may be interested to know that we had one other report from the U.S.A. of reception of this station at this time, the report coming from New Jersey.

Yours faithfully,

(H.D.P. Bambridge)  
for

Head of Engineering Information Department
