21st February 1961

Mr. B. Dangerfield, 3rd,
202 Governor's Drive,
Sproul Estates,
Chester, P.O.,
Pennsylvania, U.S.A.

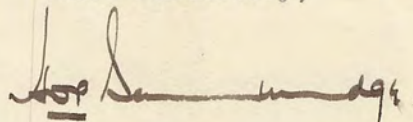

Dear Sir,

Thank you for your further letter of the 13th February reporting reception of our medium wave transmitters.

The details you have given about the programmes you heard appear to agree with the programmes we were radiating at the time, and it was probably the Washford transmitter which you heard, since this transmitter is the most powerful of the group operating on 881 kc/s.

In order that you can identify our programmes more easily in the future we are enclosing a specimen copy of the Radio Times, which is the weekly journal of the BBC.

Yours faithfully,

(H.D.P. Bambridge)
for

Head of Engineering Information Department
