Dear Mr. Dangerfield,

Thank you very much for your letter and reception report, which was quite correct, and most surprising. Let me congratulate you on your receiver, and also on your antenna. Your QSL card is already on the way. We also have daily broadcasts on the short wave in English, which you might find more interesting. I am sending you a copy of our program schedule, in the "Budapest Antenna" our quarterly newspaper, which you might find useful.

I hope you were listening to our "Calling Radio Amateurs" on Tuesday, March 12th, when we greeted you over the air.

Sincerely yours,
Anna Darvas
