Dear Sir,

Please find here enclosed a new QSL verification card regarding your listening of 26.1.1963. The medium wave Station you heard on 647,02 kc/s. was effectively RADIO NACIONAL DE ESPAÑA in SEVILLA, since Radio Nacional de España in San Sebastian is broadcasting on 638 kc/s.

We beg you to excuse this oversight and please find here enclosed a List of Times and Frequencies, on which we are on broadcasting to the whole World, since we issue no Program Schedule for the time being.

I remain,

Sincerely yours,

Manuel Aznar.
