CHESTER P.O., PA. (U.S.A.)

Dear Sir:

We have been very pleased with your letter dated 19 y 21 th September. Your report is quite correct, and we do not wonder about the interference, with the WHCU Itaca so near in frequency and geographically.

Our power is 30 KW, the sending station is Philips, and we have a mat of 125 meters high. Our European control is very good, though we are interfered by others European stations.

Zaragoza is a town of 300.000 inhabitants in the N.E. of (Spain).

We send you a "banderín" from our station, and remain very grateful for your kind letters.

Sincerely

COMPANIA ARAGONESA DE RADIO DIFUSION, S.A.

Apoderado General

(Your Spanish is good enough!!)
