

Bairiki Tarawa.

17<sup>th</sup> March 70.

Gilbert and Ellice Is Col.  
W. Pacific

Dear Ma Dangersfield.

Thank you very much for your report of reception of our MW transmitter VS21 on 844 KHz for the 4<sup>th</sup> Feb 1970. The items you mention in your report certainly tally with our log, we are therefore pleased to verify that it is correct.

We brought this new transmitter, 10KW, into operation on the 9<sup>th</sup> of January and as you say we have been receiving many reports of reception. I think that this one of yours is from the greatest distance. We did hear from a Mr Alan Merriam from Fairfax, Virginia and although I cannot find Wallingford on my map I should think that it is a little further.

Thanking you.

Yours sincerely  
Alan Robin (BROADCASTING ENG)
