Dear Sir.,

We thank you for your reception report on 4YA.
We have checked your Items against our Station Log and find
the items correct. We take great pleasure, therefore, in forwarding
our QSL Card.

Your notification of general reception of New Zealand
stations is of interest to us here, particularly as it is
generally thought here that our Rotorua station 1YZ and 1ZB Tauranga
put the best signal into the United States.

We did notice that the reception of 4YA improved somewhat
after the increase of power to 20KW. This, particularly, on
the Pacific Coast, both the United States and Canada.

4YA is one of 3 stations of the N.Z. Broadcasting Corporation
located here in Dunedin. It is a link of the National Network,
providing general programme coverage for Sport, Rural Broadcasts,
Women's Hour, Classical Music, Educational Talks and Plays and
General Music.

4YC is a link of the second Network, which provides an
alternative programme to that of 4YA. Generally, this consists of
Classical Music, Plays, Documentaries and Cultural programmes.

... Contd.

4ZB, the third station, is a member of the Commercial Network and as such radiates Feature programmes and mainly light Music, interspersed with Commercial spots of either $\frac{1}{2}$ or 1 minute duration, or 60 word and 120 words.

The hours of Transmission of these stations are as follows:

4YA	1.00pm	EST	to	6.20am	EST on 780 KC	Using 20 KW Power	
4YC	Midnight	EST	to	6.00am	EST on 980 KC	Using 10 KW	"
4ZB	1.00pm	EST	to	7.00am	EST on 1040KC	Using 10 KW	"

We trust that this information will be of interest to you and that you may be successful in hearing our other two stations.

Yours faithfully.,

S. Williamson
