Indeed, it is very interesting for us to know that our L R 3 Radio Belgrano can be received in that zone of your country in good technical conditions, because - really - you were listening our Radio-Station in the time stated, as we can see through the description of our broadcast that you sent us. The Program you receptioned was the "Radio Morning Daily", a complete Bulletin, one hour and half long, with all kind of news from Argentine and every parts of the world.-

Thanks too much for your courteous letter, and as a witness of our gratefulness, we send you a "souvenir" from Radio Belgrano de Buenos Aires : a little flag remembering of the 38th. anniversary of our Radio-Station.-

With reference at your question about the transmitting of a special program on behalf the National Radio Club, we must say you that for this moment we do not it, but it is a very interesting suggestion that we shall have at sight when we project our future work.-
