Piqua, Ohio.

Dear Mr. Draving:

We want to thank you for your kindness in reporting that you have heard WSB in Piqua, and we are enclosing a folder that will tell you something about our station and schedules.

Our new Western Electric plant first got into the air on June 13, last, and the territory we have covered so far includes forty states, from the Atlantic to the Pacific, Saskatchewan, Ontario, and Nova Scotia, Canada; the District of Columbia, Cuba, and Mexico.

We are thankful for the thousands of good friends we have made at home and abroad and hope you will believe, Mr. Draving, that encouragement like you have given us helps immensely in trying constantly to improve our service to the public.

With best wishes for your continued good luck in operating your set and hoping to deserve further word from you some-time, we are,

Heartily yours,

The Atlanta Journal
