12 Dec 63

Mr. Kermit Geary
R.D. 2, Box 298
Walnutport, Pa. 18088

Dear Kermit,

Thanks so much for your very complete reception report of 6 Dec 63. It's a pleasure to hear from you, as we haven't had a report from Pennsylvania for some time.

It is interesting that interference came from WAMY, Amory, Miss., as usually reports indicate more QRM from WCLS, Columbus, Ga., on 1580 kc. with 5 kw.

This is the longest distance report we've had since a through going-over of our Collins 20V2 xmttr. and Proof-of-performance tests in late November 63.

According to our station logs, your information submitted by letter dated 7 Dec 63, and recieved here in Talladega on 12 Dec 63, is correct.

I was the announcer/engineer on duty at the time, and the morning man to whom I referred was Hank Fannin ...one of the Deep South's most Popular County Musicians.

Looking forward to hearing from your listening post again,

SEASON'S GREETINGS!

Bob Eloyd
Chief Engineer
