P. O. Box 398

**HOPE, ARKANSAS**

December 15, 1947

Mr. Kermit Geary  
R.F.D. # 2  
Walnutport, Penna.

Dear Mr. Geary:

We certainly want to thank you for your report on our equipment broadcast November 29, 1947.

As you can well understand, Chief Engineer Tooley has been "swamped" with last minute work since our official opening was held December 12. To further explain our negligence, we have originated broadcasts from twelve remotes.

Within a very short time, Mr. Tooley will write you. So, for the present, please accept this letter of appreciation for your cooperation.

Sincerely,

R. L. Mitchell  
General Manager
