Dear Mr. Geary,

Thank you for your reception report of April, 27th.

We are rather surprised to receive reports from the United States as our transmitter is only 2 kilowatts.

Your report corresponds with our logs and we are very pleased to include our Verification Card.

You may find the attached up-to-date list of New Zealand Stations of some use.

Good luck and good DX-ing from us all here in Gisborne.

Yours faithfully,
