Dear Mr. Geary:

Your reception report of KLAC from 11:35 pm until 12:37 am PST, November 18, 1946, has been verified.

You may be interested to know that KLAC transmitters are located in the heart of Hollywood, on the site of the old Cahuenga River bed. The ground signal is exceptionally strong and covers Southern California with almost perfect reception, from the Tehachapi Mountains on the north, well into Mexico on the south.

We receive numerous letters from all over the United States, islands in the Central and South Pacific and from the sea, telling of the clarity of reception of KLAC programs.

Thank you for writing to us.

Cordially yours,

Don J. Fedderson
General Manager
