March 1, 1943

Dear Mr. Geary:

This is to verify your reception of the DX program broadcast by KWKW on Feb. 20 for the NRC. Am glad you were able to get us so well and enjoyed the program. As you say, receiving us at all was a bit doubtful because of our antenna being so directional west.

We have had some very good reports from the east coast and some not quite so good from the middle west. Thank you for your best wishes to us and we hope to be able to repeat the program at some future date.

Yours truly,

Paul Spargo,
Chief Engineer, KWKW
