Kermit Geary

R.D 2, Box 298

Walnutport, PA 18088

Dear Kermit,

This is to confirm your reception of WFIF as reported in your letter of March 10, 1977.

WFIF is a three tower directional array with 5400 watts input power. Your listening most certainly was do to the ionospheric conditions as our null is in your direction to protect the Pompton Lakes station.

Very truly yours,

Alex Fraser

Chief Engineer

WFIF
