April 2, 1984

Kermit Geary  
1266 Riverview Drive  
Walnutport, Pa. 18088

Dear Kermit:

Thank you for the report on the reception of WRTT in Eastern Pennsylvania on the morning of February 13, 1984. The data you sent me corresponds with our programming logs.

WRTT is directional. We have two towers at 200 feet. We are a day-time station at 1,000 watts full power, and 500 watts on critical hours, usually 2 hours before sign-off, and 2 hours after sign-on. Our transmitter is a Wilkinson transmitter. The audio is fed through phone lines from our studio which is 2 miles away from the transmitter.

WRTT started broadcasting on November 21, 1982. When you were listening, we were at 500 watts, half power.

Thank you for your letter, and Happy Radio Listening!

Sincerely,

Barry Cyr  
Engineer, WRTT
