BETRIFFT:

Dear Sir,

we acknowledge with thanks the receipt of your very detailed and interesting report of reception concerning our medium-wave station Nürnberg (1602 kc/s). You will find annexed to this letter our confirmation card.

Our Nürnberg station is operating daily with 20 kW and at night with 40 kW power. This frequency being on the limit between the medium-wave- and the short-wave-band big transmission range may be reached if the ionospheric conditions are favourable. Besides your report we received with date of december 8th 1952 several other reports of reception from the States.

Yours faithfully

BAYERISCHER RUNDFUNK
Technische Direktion
