Dear Mr. Geary,

thank you for your reception report which is being officially confirmed by the card attached hereto.

Your report has called our attention to the fact that RIAS is now also to be heard over in your country on the medium wave frequency 303,3 m. This is of special interest to us as thereby we get to know the effect of the medium wave transmitter concerned, which has just recently been amplified.

Hitherto, the reception, if any at all, was possible only on the RIAS short wave frequency 49,96 m = 6005 kc/c.

We are taking this opportunity to enclose a booklet on the birth and tasks of our station as well as a schedule.

Looking forward to further reception reports, we remain

Yours truly,

R I A S
BERLIN

Haynes R. Mahoney
(Haynes R. Mahoney) (Dr. Kirstaedter)
