November 23 1964

Dear Kermit,

Thankyou for your very informative letter and reception report. (excuse typing). We are pleased to know you can receive us with sufficient clarity to permit identification, at such a great distance.

Sorry we have no Q.S.L. cards at the moment, will send one soon, so this letter will have to suffice as confirmation of your report.

Our transmitter is Continental Electronics 10 K.W. feeding a quarter wave folded dipole, 186 feet of mast. Quite a sway in heavy seas! All studio gear is Gates, except for Ampex tape recorders.

We have received several reports from the States and as far as Singapore in the other direction. We have yet to hear from Russia!

We are situated  $3\frac{1}{2}$  miles off Ramsey, I.O.M. about 70 miles from Liverpool. (I had to say that 'cos Frank's girl comes from there!) We work 2 weeks on board, 1 week off, a situation we would prefer to have reversed, if the management would let us out of our straight jackets. Life is not too bad, really, tho' we miss the dames.

~~XXX~~ This epistle comes to you by kind permission of Roger Gale, D.J. and bar, (he is barred from most decent establishments), who owns the typewriter, and Jerry, ~~E~~"the fingers" Grover, who tryped it.

Seriously tho', I am slightly mad 'cos I've been on board for 4 weeks and am not due off for another week, it does things to the old grey (or gray) cells, or lack thereof.

We hope this load of irrelavencies is of some interest to you, you can now state quite irrevocably that Caroline is run by a bunch of pathological twits, who do not know ~~XXXXXX~~ their amps from their volts.

Yours, till some jerk pulls the plug out,

Frank Kemble.  
Chief, T.X.

Jerry Grover.  
Audio

Trevor Grantham.  
(he keeps us happy)

Roger Gale, he needs the publicity.
